

**Dear Friends,
A very happy, healthy & prosperous New Year!**

I have been associated with ICPB for over a decade now and I feel truly humbled to be elected as the Vice- Chair of the organisation for the current term. Having been a part of the MICE Industry in India for over two decades now, I can safely say that India is on a positive trajectory as far as MICE growth in the country is concerned. This growth however is being triggered by three factors – recognition of India as a potential MICE option on an international level, the rise in plenty of “Events Space” in the country not just in the metros but also in other parts and thirdly, the concerted efforts on part of the various Stakeholders in the country, who are constantly striving to bring-in more MICE business in India. It is heartening to note that MICE tourism in India is continuously growing and increasing its meetings, incentive, conference and exhibition facilities. If figures are to be believed, there has been 15 to 20 per cent annual growth in the inbound MICE segment with an estimate of ₹8500 crore annually.

As per ICCA (International Congress and Convention Association), India currently ranks 28 in global meeting market with 158 International Meetings and keeps climbing up the ladder slowly and steadily. Besides the conventional destinations, such as, New Delhi (which stands at 61 in global ranking), Chennai, Bengaluru and Hyderabad, cities of Agra, Kerala, Goa, Jaipur and Udaipur are fast gaining prominence on the MICE map of India.

Therefore my friends, what we have in front of us is an ocean of possibilities and opportunities, which when handled right can benefit not just our country but also us – the MICE handlers immensely. My focus at the helm of ICPB would be to work towards making India an important MICE destination and try to get a meaty share of the Global Events and Meetings Industry for all of us. I, along with my team, look forward to welcoming more members to our association, grow our strength and make ICPB visible at national as well as global platforms.

Through this message I would like to welcome you all to participate whole heartedly in making the initiative a grand success. We look forward for contribution from each one of you in shape of relevant articles, achievements or advertisements from the field. Lastly and most importantly, your valuable suggestions are most welcome to better the newsletter. Wish you and your dear ones a very healthy year 2020.
